

**Project Design Phase-I**  
**Proposed Solution Template**

Date	18 October 2023
Team ID	592223
Project Name	Project - Extracting Intelligent Insights With AI-Based Systems.
Maximum Marks	2 Marks

**Proposed Solution Template:**

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Extracting Intelligent Insights With AI-Based Systems.
2.	Idea / Solution description	Automatic text summarization promises to provide summarized content and allow you to generate the key ideas in a piece of writing easily.
3.	Novelty / Uniqueness	We would allow you to summarize and extract documents no matter how lengthy the content is .All the contents can be summarized at once .

4.	Social Impact / Customer Satisfaction	Searching relevant content from piles of data can be a time consuming process ,our software will save users time .provide pointed content to the user and make users comfortable and
5.	Scalability of the Solution	On online apps there is a word limit on summarizing the content as well as its tedious and lengthy process. We help users by scaling the data as a whole and preserving users time and energy .
